MODEL PERFODOC TF

Electrical Perforating Machine for Fixed Text

Electric text perforating machine for fast and effortless invalidation, marking, or labeling of documents, samples, labels, films, plastic cards effortlessly.

PERFODOC TF is engineered to meet high demands.
It is equipped with a fixed text of your choice, in the standard version with up to 12 digits, letters or a combination of the two. Up to 3 lines with a respective text length of up to 82 mm can be attached vertically.

The machine is equipped with adjustable depth and side guides to allow precise positioning of the perforation on the forms.

The insertion depth is approximately 80 mm, measured from the edge of the paper to the center of the perforation.
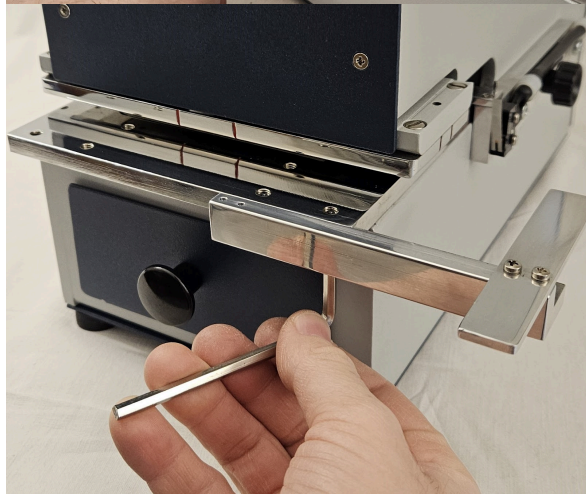

To perforate, the operator simply needs to press the start button or touch the documents to the microswitch, or use an optional pedal.

Even with 12 digits, approximately 25 sheets of 70 g/m2 paper can be perforated in one operation.
It features an automatic paper release system in case too many sheets are inserted, allowing the operator to resume normal operation.

It has an LCD screen that displays the number of perforations and the machine's working hours.

In order to avoid unauthorized uses of the machine the PERFODOC TF is equipped with a safety key.

It has a system that automatically detects the voltage and can operate in all countries worldwide.

Technical Data   Model PERFODOC TF

Type of current	: 110 V - 60 Hz; 220/240 V - 50 Hz
Perforating capacity	: about 25 sheets (depends on the number of digits to be perforated)
Insertion depth	: up to about mm. 80
Perforation time	: 0,7 s
Net weight	: kg. 23
Machine dimensions LxWxH	: cm. 33x18x33
